

GREATER LANSING UNITED NATIONS ASSOCIATION

Climate Action, Community Driven

gluna.org/event/climate-action-community-driven

Join GL-UNA for a discussion on the accelerating climate challenge.

We will focus on the following: what can communities do to address climate change? What are the barriers? How can citizens move local governments to take action? What are the realm of possible policies, actions that are already being used in other communities?

APRIL 26 AT 6:30PM | HYBRID EVENT
